Claims 8-11 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 8, line 7, "the bat" lacks proper antecedent basis.

In line 1 of claim 10, "said second portion" lacks proper antecedent basis. For purposes of this action it has been assumed that applicant intended to claim "said second protrusion".

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 3-10 and 12 are rejected under 35 U.S.C. 102(b) as being anticipated by Sleight.

Regarding claims 3-8 and 12, Sleight's grip comprises the structure claimed and may be used in the claimed manner and therefore anticipates the claim.

Concerning claim 4, Sleight's protrusions as shown in profile in Fig. 5 meet the "rough-diamond shape" limitation given the breadth of that limitation as seen in the shape of applicant's "rough-diamond shape" protrusions.

Concerning claims 9 and 10, the lower portion of Sleight's protrusions point downward at an angle of 0 degrees to the axis of the bat which is an acute angle.

In response to applicant's arguments there is no requirement that Sleight teach that his grip be used as applicant intends and applicant has provided no reasons while it could not be used to form a grip as intended by applicant.

Claim 11 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.

Any inquiry concerning this communication should be directed to Mark S. Graham at telephone number 571-272-4410.
